

# SCANNER

Com Video

## Features:

- The CV-125A Indoor Scanner is a light-duty Pan and Tilt drive with autopan
- Handle loads up to 7Kg or 5.5Kg when in inverted position
- Drive motors provide operational stability with minimum coast with instant start-stop characteristics.
- Slow speed, high-torque motors stand in a low noise level.
- The Pan and Tilt motors and impedance protected and a molded gasket protects the unit from moisture.

### CV-125A INDOOR PAN/TILT SCANNER

Angular Travel	Pan:355° Tilt:±45°
Limited Switch	Externally Adjustable
Speed	Pan:6°/Second Tilt:6°/Second
Load Rating	Pan:7Kg Tilt:4Kg
Duty Cycle	Pan:0 Continuous Tilt:Intermittent
Power source	AC24V/100V/117V(60Hz)
	AC220V/240V(50Hz)
Power Consumption	6W
Normal Operating Current	24V--200mA、100V/117V--50mA
	220V/240V--35mA
Cable Requirement	Six Conductor、Unshield
Operation Temperature	-5°C~+60°C
Construction	Aluminum and Plastic
	Off-White Textured
Dimensions	150mm(L)x160mm(W)x220mm(H)
Weight	2.2Kg

## Features:

- Auto control / Manual adjustment for desired directions: Pan and Tilt are available
- Special screw terminal-detachable connector easy for installation

### CV-126A PAN/TILT SCANNER CONTROL

Tilt Control	Paddle Switch UP/DOWN
Pan Control	Paddle Switch LEFT/RIGHT
Power Control	Slide Switch MAN/OFF/AUTO
Input Voltage	AC24V/117V/220V/230V/240V
Output Voltage	AC24V/117V/220V/230V/240V
	to Scanner
Operation Temperature	-10°C~+60°C
Connector	6PIN、Terminal
Construction	Steel、Off-White Textured
Dimensions	212mm(D)x218mm(W)x45mm(H)
Weight	1.1 Kg
